Mission Statement

“To deliver the right number of personnel, at the right time, with the right skills, at the best value, supporting the multiple missions of Navy Medicine.”

Vision

“To be the innovative medical organization that drives total workforce management and lifelong learning.”

Navy Medicine Manpower, Personnel, Training, and Education Command Information

- Hub for Navy Medicine's medical and operational health services support training and education
- Trains over 30,000 federal, civilian and foreign military personnel annually in a wide variety of clinical and operational medicine courses via subordinate activities and commands in more than 50 facilities across the United States
- Offers more than 125 courses of instruction ranging from Special Forces/Surface/Submarine/Dive Independent Duty Corpsman training, Survival training for all Naval Aviators, specialized clinical training, graduate education and leadership courses for Hospital Corpsmen, Nurse Corps officers, Medical Corps officers, Dental Corps officers and Medical Service Corps officers
- Operates the largest Navy "A" school, training more than 4500 Hospital Corpsmen annually
- Navy Medicine's arm in the enlisted medical training consolidation at the new Medical Education Training Campus (METC) at Fort Sam Houston in San Antonio, TX. As a key component of the 2005 BRAC law, METC is the Department of Defense's largest single training activity and will

graduate more than 35,000 Army, Air Force and Navy students annually in over 100 courses of study. NAVMED MPT&E's Navy Medicine Training Center (NMTC) supports this Tri-service education and training consolidation as the Navy service element command for METC, including the Physician's Assistant School. When fully operational in September 2011, the METC will incorporate 23 "C" schools

- Establishes and oversees educational collaborative relationships with over 200 universities for over 3,200 Navy Medicine students
- Executes the Navy's Armed Forces Health Professions Scholarship Program (HPSP), Health Professions Loan Repayment Program (HPLRP), Nurse Candidate Program, Financial Assistance Program, MSC In-service Procurement Program, and the Medical Enlisted Commissioning Program
- NAVMED MPT&E's Navy Operational Medicine Institute (NOMI) in Pensacola, FL, is responsible for six detachments and nine training centers across the country. NOMI's programs include:
 - Naval Survival Training Institute (NSTI), Pensacola, FL (includes eight Aviation Survival Training Centers (ASTC) at Naval Air Stations on both coasts)
 - Naval Expeditionary Medical Training Institute (NEMTI), Camp Pendleton, CA
 - Naval Aerospace Medical Institute (NAMI), Pensacola, FL (Trains flight surgeons, other aerospace medical personnel)
 - Naval Undersea Medical Institute (NUMI), Groton, CT – (Submarine Independent Duty Corpsmen and other undersea medical personnel)
 - Navy Trauma Training Center (NTTC), Los Angeles Medical Center – (Provides clinical trauma exposure)
 - Surface Warfare Medicine Institute (SWMI), San Diego – (Surface Independent Duty Corpsmen and other surface medical personnel)
 - Advanced Dental Assistant Program (ADAP), Naval Base San Diego
 - Navy Drug and Alcohol Counselor School (NDACS), Point Loma, CA
 - Naval Special Operations Medical Institute, Fort Bragg, NC
 - R. E. Mitchell Center for Repatriated Prisoners of War – DOD's only multi-service ongoing follow-up medical observation of American repatriates
